

MATHESON Delivers:

Gases, Equipment and Services for the Biotech Industry

Trust **MATHESON** for quality, safe and economical products to fit your needs from start to finish.

Liquid Nitrogen

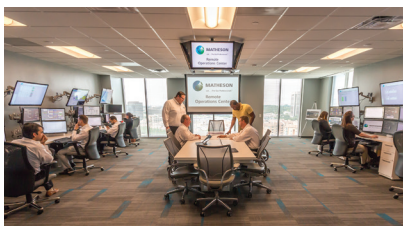

MATHESON offers production, distribution, storage, and supply systems for Liquid Nitrogen.

Beyond the technology in our ASUs, **MATHESON** has invested in advanced systems for logistics, telemetry, remote monitoring, and digital recordkeeping - to ensure deliveries are timely and handled in a process that is efficient for our customers.

- **Cryogenics Services & Engineering**
 - **MATHESON**-employed and trained, regionally-based engineers and service technicians
- **Delivery**
 - 24/7/365, coast-to-coast
 - 5.5 sigma level on-time delivery
 - Trucks equipped with latest fleet management technology
- **Logistics Center**
 - Operational 24/7/365
 - Centralized call center
- **Bulk Supply Options**
 - Cryogenic tanks (300 to 30,000+ gallons)
 - Tube trailers
- **Small Bulk Supply Options**
 - Liquid containers
- **Supply Monitoring**
 - Remote Telemetry Units (RTU's)
- **Technology**
 - Innovative mobile platform solutions
 - Bar code scanning on customer tanks for digital signature captures
- **E-Commerce**
 - 24/7/365 access to account information and documents

Dry Ice

- Dry ice up to 500lbs
- In-house manufacturing

Laboratory and Medical Grade Gases

- Full line of cylinder sizes
- CO₂ and anaerobic mixes for incubators
- Medical USP and NF grade gases
- BioBlend and blood gases

Freezers

- Chart, Worthington or Custom Biogenic Systems freezers supplied by **MATHESON**
- Freezer lease and rental programs

Cryogenic Freezer Service

- Custom scheduled preventative maintenance program
- Installation and validation services
- Exhaust system design and installation
- Vacuum jacketed piping
- Oxygen monitors and maintenance

Cryo Solutions

- Biological sample transport containers
- Cryopreservation vessels and biotechnology-related devices

Specialty Gases and Equipment

MATHESON has 90+ years in the specialty gas business, and our commitment to quality through innovation is second to none.

- Gas products specifically designed for your applications
- The largest selection of gas handling equipment in the industry
- Regulators, manifolds, custom designed delivery options
